

Features

- 1.8"x1" compact size
- · Medical safety approved (2 x MOPP) according to ANSI/AAMI ES60601-1 and IEC/EN60601-1
- Suitable for BF application with appropriate system consideration
- No load power consumption<0.075W
- · Extremely low leakage current
- Wide operating temp. range -40 ~ +85°C
- EMI class B for class Ⅱ configuration
- · Protections: Short circuit / Overload / Over voltage / Over temperature
- No minimum load required
- Typical lifetime > 48K hours
- · 3 years warranty

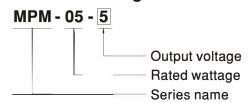

Applications

- Portable medical device
- Mobile clinical workstation
- · Medical computer monitor
- Medical examination instrument

Description

MPM-05 is a 5W high density and small size (45.7*25.4*21.5mm) AC/DC module type medical grade power supply series offered in pin type. It features the operation for 80~264VAC, a low no load power consumption less than 0.075W, a high efficiency up to 82%, Class II (no FG) double insulation, outstanding dissipation and high lifespan thanks to the interior potting, 5G anti-vibration, high EMC performance, 4KVAC isolation, etc. The design observes IEC/EN60601-1 and ANSI/AAMI ES60601-1 version three with 2xMOPP level and ultra-low leakage current ($<80 \mu$ A). It is very suitable for BF (patient contact) type medical device or relevant equipment.

Model Encoding

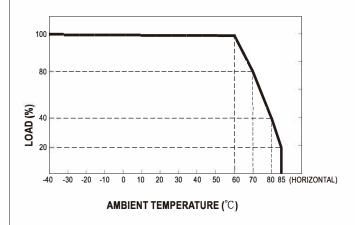

SPECIFICATION
